

Jandy Valves are the Industry Standard

Jandy sets the benchmark in quality and innovation for pool and spa valves. For over 30 years Jandy valves have been the undisputed leader in the pool and spa industry. Our commitment to quality makes for easier, problem-free installations. Jandy valves share one thing in common — dependability! Dependability begins with top-of-the-line materials and rigorous quality control standards. We offer the widest variety of valves to choose from for a multitude of pool and spa applications. Superior quality and plumbing versatility make Jandy valves the #1 choice of pool and spa professionals everywhere!

NeverLube® Backwash Valve

— Jandy Innovation at its Best

The new 2-in-1 design of the backwash valve is versatile enough to be used on either sand or D.E. filters. The Straight-through full flow port design delivers maximum hydraulic flow. The Jandy Versa-Coupler allows easy installation on most brands of filters. NeverLube® technology on the diverter seal ensures it will never need lubrication and comes with a lifetime guarantee! Molded in high strength CPVC, it is resistant to temperature and chemical fluctuations. Available in two models, 8034 and 8034J. The 8034J is pre-plumbed for use on Jandy DEL48 and DEL60 filters.

Slide Backwash Valve

— Optimum performance

Designed for maximum performance and reliability, the Jandy Slide Backwash Valve is constructed of durable CPVC thermoplastic. The Slide Backwash Valve connects directly to the Jandy DEL 60 and 48 filters. The valve features 2 by 2½" ports and an ergonomic handle. The Jandy Versa-Coupler allows easy installation on most brands of D.E. and Sand Filters.

NeverLube® 2-Port/3-Port Valve

— Best of Class

For over 20 years this has been Jandy's best selling valve. It never needs lubrication. (Your customers will love that!) In fact, it's totally maintenance free. It is extremely reliable; designed to never leak, crack or break. The NeverLube® valve is built from the toughest CPVC material that can withstand extreme chemical and temperature fluctuations. For optimum performance, use in conjunction with the Jandy Valve Actuator for automatic operation. Available in 2 by 2½" or 2 by 1½" sizes.

Never Requires Lubrication

NeverLube® Technology

Industry Standard

2-in-1 Design

Check Valve

— Durable and Dependable

Made of the same tough CPVC material as the Jandy NeverLube® valve. It features a clear lid for easy inspection and a unique swing/spring design for both return and intake water. Available in straight-through or 90° models, 2 by 2½" or 1½ by 2" sizes.

Jandy Gray Valve

— Built to Last

This tough and economical workhorse diverter valve is the standard-bearer valve of Jandy. It can be lubricated without disassembly. Made of super durable CPVC, it comes with a 20-year track record of proven reliability.

Gold Standard® Ball Valve

— Proven Performer

Available in union and non-union models. This valve is made of durable PVC and is highly resistant to chlorine. Available in ¾" to 4" sizes. The Jandy ball valve is the economical, quality choice.

Jandy Valve Actuator

— Builder's Choice

This fully adjustable actuator offers versatile pool and spa automation, working seamlessly with the Jandy AquaLink® RS control system. Available in 24 volt model.
