

PSION WORKABOUT PRO CE

Handheld computer and radio receiver *izar* PRT BLUETOOTH

The Psion PRT system includes a Psion handheld computer WORKABOUT PRO CE fitted with an Izar PRT Bluetooth radio receiver. Psion handheld includes the IZAR CE WORKPRO software developed by Sappel for meter reading in the radio mode or in the manual mode. With the Izar PRT Bluetooth radio receiver and the IrDA optical head, it can program and read all meters fitted with an Izar radio system. The Psion handheld computer communicates with all PC type computers for loading and unloading data.
